European Philanthropy Coalition for Climate

**WE EMPOWER AND
ENGAGE
PHILANTHROPY
TO DRIVE CLIMATE ACTION
ACROSS EUROPE AND
BEYOND**

Climate & European philanthropy

In Europe, there are over **147,000** registered public benefit foundations active in the fields of..

Health

Arts & culture

Youth

Socio-economic development

Science & research

... & much more

Our ambition is to create **A POWERFUL MOVEMENT** for change to **MOBILISE PHILANTHROPY** across Europe and beyond to address **THE CLIMATE CRISIS** as a **CROSS-CUTTING SOCIETAL ISSUE.**

Our vision

All foundations commit to meaningful climate action

Philanthropy enables catalytic and transformational changes across societies in Europe and beyond

Philea is a thought-leader for climate & philanthropy

**All
foundations
commit to
meaningful
climate
action**

- We **communicate** the urgency and relevance of climate for foundations of all types.
- We provide a platform for foundations to share why and how they have integrated a climate lens.
- We **champion** and develop the **#PhilanthropyForClimate** movement – a framework for foundation climate action
- We support implementation through **capacity-building** and **peer exchange**

- Philanthropy infrastructure organisations (PIOs) are critical **multipliers** and **accelerators** who can strengthen our impact across Europe
- We empower Philea's **national association** members and the **PEXcommunity** to encourage and support climate action across the philanthropy ecosystem

Building capacities within Philanthropy Infrastructure Organisations

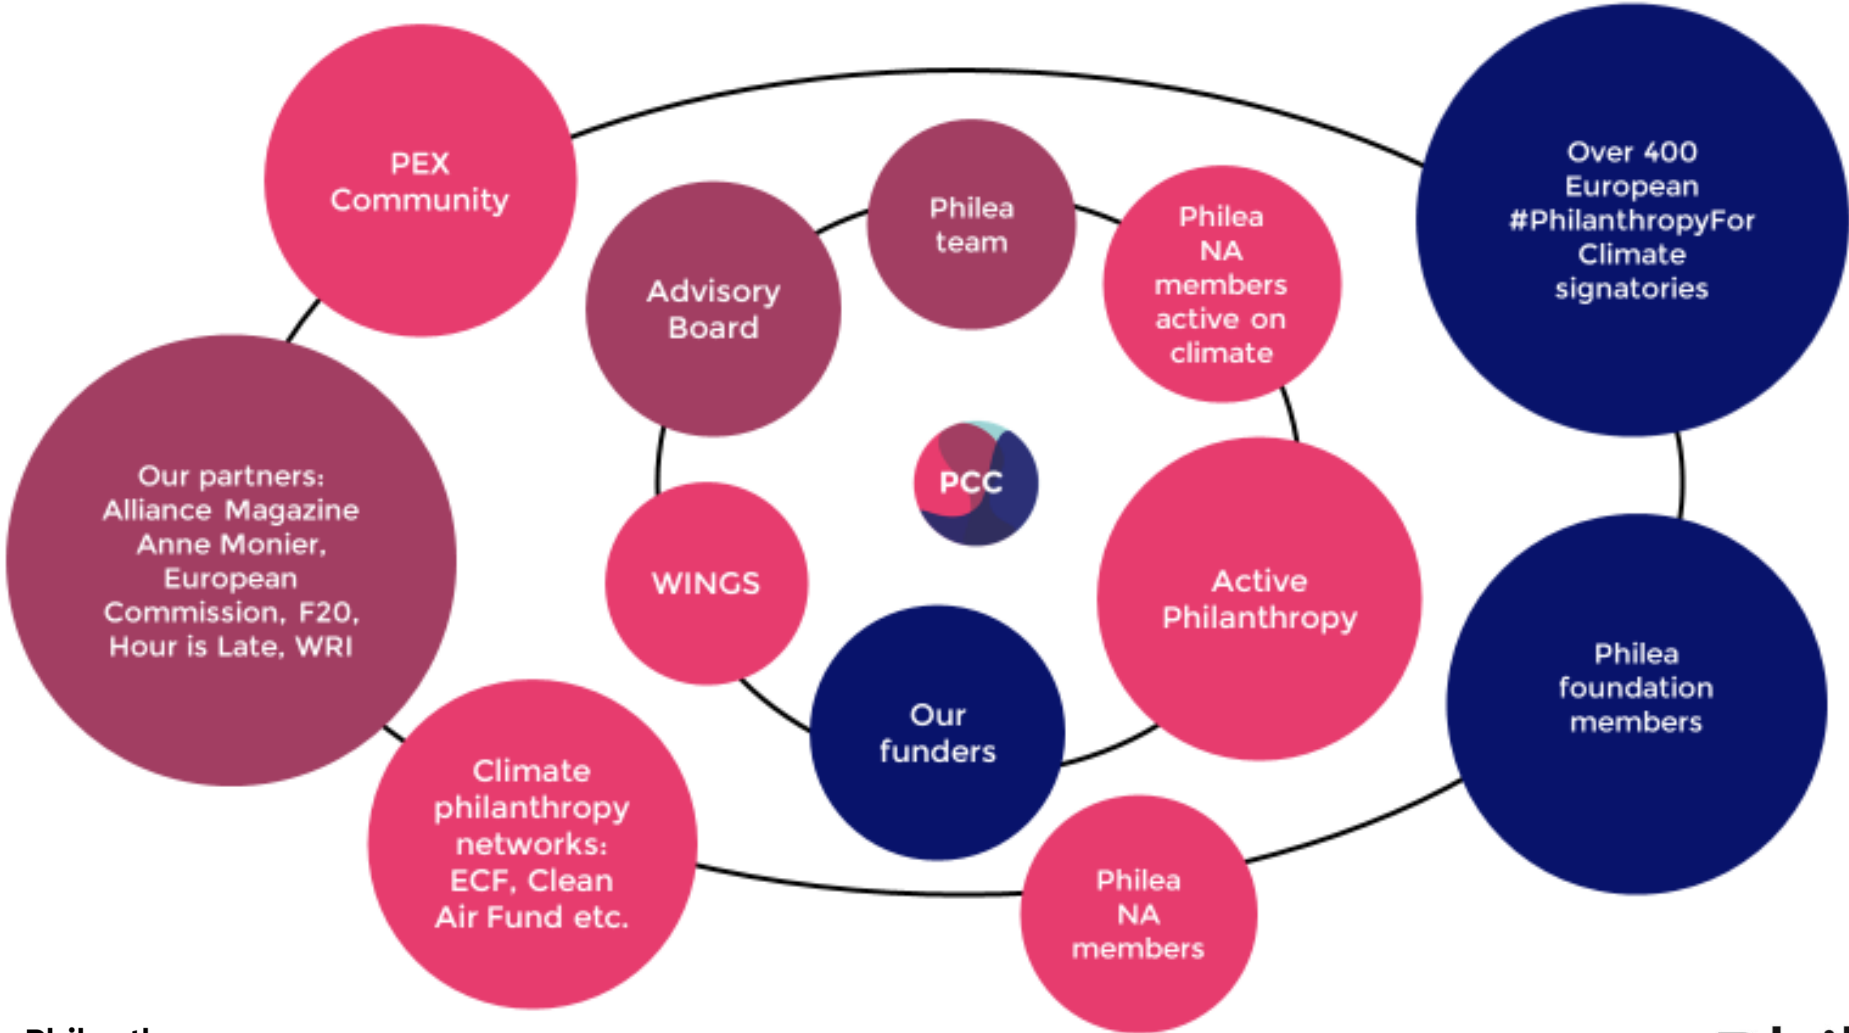

***Philanthropy
enables catalytic
and
transformational
changes across
societies***

- We are building partnerships between the philanthropy sector and **policymakers** on the topic of climate change (e.g. EU climate pact)
- We engage with the philanthropy **research community** to deepen our impact
- We strengthen our work through **collaboration** with key partners (e.g. WINGS, WRI, Active Philanthropy)
