

## 6<sup>th</sup> edition of Philea mapping on environmental funding by European foundations – CALL FOR DATA

Philea's [European Environmental Funders Group \(EEFG\)](#) is starting work on the 6<sup>th</sup> edition of our report mapping of European environmental philanthropy, the most comprehensive overview of its kind. The previous edition can be viewed here: [Environmental funding by European foundations – Volume 5](#)

We are contacting you as an important player in the field of environment and sustainability and we would be delighted if you are able to share with us the details of the environmental grants made by your foundation in 2021. In the last edition we aggregated together 5,358 grants from 127 leading foundations with a total value of €745.6 million, to create the most comprehensive overview ever produced. With your help we would like to expand the coverage further in the 6<sup>th</sup> edition, so that the outputs are even more useful to the European philanthropy sector and to environmental organisations, including your foundation.

### HOW TO CONTRIBUTE?

If you are a foundation based in Europe working in the field of environment and sustainability please share with the Philea secretariat your data on grants/programme expenditure authorised in **2021** in this fields by sending via email to [eefgmapping@philea.eu](mailto:eefgmapping@philea.eu)

Please include data on as many of the fields below as you can:

- Grantee name\*
- Grantee type (NGO, university, local authority, etc.)
- Grantee country of location\*
- Purpose or short description of the grant\*
- Grant amount - Please indicate currency if other than €\*
- Year of approval\*
- Duration of the grant
- Other types of financing (if not a grant: such as loans, guarantee, quasi-equity, etc.)
- Final beneficiary country/region (if different to the location of the grantee)

#### \*essential elements

*We are happy to receive an output from your grants management system in whichever electronic format and language it is available - with Excel being our preference. If you are able to share the grants data in English it will save us time in terms of translation, but what is more important is that we get the information, regardless of what language it is in.*

**Foundations operating their own programmes** can submit a list of their own programme expenditure that covers the same fields as above.

If your foundation made **less than € 350.000** in environmental grants in **2021**, please contact us here- [eefgmapping@philea.eu](mailto:eefgmapping@philea.eu), before submitting your data.

**Deadline for submissions: 31st July 2022**

#### \*\*\*IMPORTANT\*\*\*

**Where is my data going?** Please be assured that the **Philea will treat any information that you provide as confidential.** Your grants data will only be viewed by the research team who will code and analyse the grants. The published report will **only feature aggregated data.** In the last four editions of the research **no information on grants from specific foundations has been disclosed, only the aggregate figures for the environmental philanthropy sector as a whole.**

We look forward to receiving your information and we thank you in advance for your cooperation!

If you have any questions or remarks, please feel free to contact Giulia Lombardi  
([giulia.lombardi@philea.eu](mailto:giulia.lombardi@philea.eu))

In case you are not the right person to answer this call for data, please don't hesitate to tell us who we should be contacting among your colleagues.

Best regards,

Giulia Lombardi, Senior Programme Manager, Climate Thematic Networks, Philea
